Hi Sally, We have one specific concern remaining with your ongoing monitoring parameters for the petition. It has to do with length of averaging times for monitoring the waste composition. To expedite things we thought it would be best to try and have a quick conversation about this so that we can better understand your constraints and what options you think might be workable for your operation.

Zach and I are available until 2pm today. But we can have Step on the phone as well if we aim for 11:00 Pacific time. Would a call at 11:00 Pacific work for you and Mike?
